

K-Love provides great, quality Christian programming. I listen to K-Love everyday. It is the only station I can let my children listen to without worrying about them picking up some bad language or sexual comments that no 10, 4, or 3 year old should ever hear. If K-Love were displaced in this community the Christian's would have nothing left to listen to. We have no other station that play contemporary Christian music. Whether you are a Christian or not K-Love serves the community by providing encouraging and positive music that anyone can listen to from 0-100. I love K-Love and I know my life would be miserable without them.
